Doughs, Colds, Influence, Front, Hourseness, Bronchitt Pacumonia, Diseases of the Bowels, arising from Oil Incipient Concumption, and for the relief and (if at a possible) cure of Palients in advanced stages of the latte disease.

Tile Balsamic Cordial is entirely a Vegetable production, combining the healing properties of the Balsam,
with the invigorating qualities of a Cordial, producing a
combination so well adapted to the purposes intended,
that there are but few cases of disease which will not, at
an early period, succumb to its healing and life-giving

an early period, succumb to its healing and lifegiving properties.

For area has the treatment of pulmonary diseases ercepted the greater portion of the attention of the scientific of the medical world, but more acquired more eminence in his treatment of those diseases, than the celebrated Praesian liv. Hooftand, the originator of the Balsamic Cordial. His life was devoted to the production of remedies that would stand unrivaled. How well he has succeeded, the American prople are able to judge: and we positively assert, that no preparations that have every been placed before them, have conferred the same amount of benefits on sufering humanity, or have elicitied so many commendations from all classes of society, as the remedies of Hooftand, prepared by Dr. C. M. Jackson & Co., of Philadelphia.

The Cordial is designed for a class of diseases more general and more fatal than any other to which the people of this country are subject—those springing from a "elight cold." That eminent authority, Dr. Bell, asys: "I will not say that Colds are to our inhabitants what the Plague and Yellow Ferer are to those of other countries; but I can aver confidently that they where in discrete ference of excess cornelities and merality than these latter these latters.
